MASS MEETING AT

TUCKER HALL,

SATURDAY NIGHT, MAY 1st.

Let the House be filled, and let every good citizen buckle on his armor for next Monday's fight for the redemption of the city from Radical m'srule.

Miss Armstrong.-In justice to this lady, we publish a note from her, explanatory of the only point in the charge which appeared in our columns of Tuesday which needed notice—the fact that Miss Armstrong ate at the same table with herservant woman at Franklin, Va., which fact Miss Armstrong states was occasioned by a mistake, and upon which our article was based. This is what we cheerfully do, and at the same time submit the note without farther comment. Capt. Woodson, the writer of the paragraph complained of, being at present absent from the city : RALEIGH, April 28th, 1874.

To the Editor of the Daily News: Sir:—A paragraph appeared in your issue of Tuesday the 27th, which has pained and astonished me beyond measure, based as it is, on an principle and practice. Twenty min-utes being allowed at Franklin, Va., for breakfast, I requested the proprie-tor to provide that meal for my servant, and being the only lady for breakfast took a seat at a vaca...t table, when my servant was immediately placed at the same table. I concluded he had some right or reason in doing so, and submitted to the very singular circumstance as I would not for one moment have submitted to it in my own country. I conceive your Civil Rights measure has invaded my rights in the matter, and your correspondent would have been better employed had he instead of holding up a stranger and a lady as an illustration of "Civil Rightism" apologized for a law which legally thrusts undesirable company on

travelers. As your paragraph has done much harm and inflicted much pain on myself and others, I trust you will offer such explanation as the circumstances demand. I am, Sir, Yours &c.,

ISABELLA TEMPLETON ARMSTRONG. During a conversation with Miss Armstrong yesterday afternoon, she assured us personally of the statement made in her card-that she deemed the Civil Rights bill must have forced this action upon her, that being the first eating house or hotel she had entered in the South.

THE SPELLING BEE .- The spelling schools having become popular in vari ous sections, and having been organized in this city, we publish the following "rules" governing these schools in the North and elsewhere: 1. The captains draw sides by lot.

A speller has but one trial at each word. To set all at ease the dictator will begin with simple words -as

ache, field, breakfast, etc.
4. Obsolete, provincial or technical words are not to be excluded, but with this proviso: That upon such word being given out any speller may have the right to object, stating his plea. The umpires will then decide whether said word be sufficiently objectionable to exclude it. No speller will be allowed to spell a word two ways without electing one mode as

being positively correct.
5. The speller may repeat the word after the leader, shall have the right to ask the meaning, or question the correctness of the pronunciation, or to correct his own spelling up to the pronunciation of the word after spelling the final syllable; but after the pronunciation no correction will be

6. Whenever a speller misses he shall go to the foot of his division, and on missing three words he shall take his seat. 7. Webster or Worcester shall be

authority on all disputed points.

These rules are liberal enough, enabling the speller as he elects to avail himself of all the latitude in spelling. A DESERVED COMPLIMENT .- The

Wilmington Literary Association has invited Mr. T. B. Kingsbury to deliver a lecture on the subject of Tennyson and his poems. We regret, for more reasons than one, that Mr. Kingsbury has been compelled to decline the invitation. No gentleman in the State is so

well qualified as is Mr. Kingsbury to

a work of pure criticism. His forte is literary, and he has cultivated his tastes to a degree that elsewhere would give him an enviable reputation. In our State, absorbed in material progress, or in the excitements of political affairs, he is not appreciated. But if we would learn and feel that in this life of ours there is something to be valued beyond the mere material-if we could feel that intellect has its pleasures and its rewards as well as that which conduces to men worldly property, then we could learn to look upon Mr. Kingsbury as one of those who would give our State a new and a more distinguished eleva-

THE ORPHAN ASYLUM, AT OXFORD, N. C.

OXFORD ORPHAN ASYLUM.

Above we present a cut of this building, an institution which may be regarded with mingled emotions of pride and mortification-of pride because North Carolina has such a refuge for the destitute orphan-of mortification, that its support should be dependent upon the chance gifts of charity, or on sudden and unreliable outbursts of sympathy.

For the backwardness of the State in withholding its aid, there is a reason urged to which we will not allude, but which has an imperative force. We have u ged here and elsewhere the obligation of the State to regard this as one of its public charities whose interests are as much its care as that of the Deaf, the Dumb and Bfind, or the demented terrait of the Idsane Asylum. To this the e is sent back in reply an answer that s unanswe able.

The maintenance of the Asylum devolves upon private charity or the munificence of benevolent insitu. oos. They have not faltered in their duty and have met their responsibility. But is necessarily an unreliable support, and we would be glad to see, until the State feels itself justifiable in assuming control, and providing means, efforts made to procure endowments. The institution can never be considered on sale ground until it has found permanent means of support.

But every demonstration has been made of its value. It has already rescued hundreds from poverty and degradation. It has christianized those who were growing up in heathenism. It has enlightened those who were enshroused in intellectual darkness. It has taught industry to those who were being hopelessly engulfed in indolence and vice.

Shall this be stopped, all for the pittful and pajoful admission of a pe uniary disability? Shall all this great interest be overridden by a want of means?

We hope not, but that the liberal the charitable, the benevolent will rouse themselves to make some se cure provisions for the support of the institution. A notice of the Institution would

be imperfect without a reference to Mr. J. H. Mills, to whose untiring energy and unselfish devotion it has been kept aliver al no fact it may be said to owe its existence to those pe culiarities of mind and heart with which Mr. Mills is so liberally andowed, and which seem to mark him as one of those special instruments raised up from time to time by beneficent Providence to carry out His wise plans for the furtherance of human progress and the amelioration of human suffering. But for Mr. Mills, the Asylum might not have had existence, Certainly but for him it had long ago perished.

The Institution is the property of the Grand Lodge of Masons, and its benefits are offered to the most needy orphans, whether their fathers were Masons or not, and the design of the Institution is to train, protect and educate indigent and promising orphan children to be received between the ages of 6 and 12 years, who have no parents or property or near relatives to assist them.

The Asylum is at Oxford, about 45 miles North of Raleigh, and 12 miles West of the R. G. & R. R. The buildings, of brick, are large, commodious Country Merchants .senosbrad bus by would say give us a senosbrad bus

AN IMPORTANT OPINION FROM THE STATE TREASURER.-The following decision of the State Treasurer, in regard to the Machinery Act of the late Legislature, will be found of general interest:

STATE OF NORTH CAROLINA, ) TREASURY DEPARTMENT, RALEIGH, April 23d, 1875. To the Board of Commissioners

The opinion of this Department having been frequently asked in regard to the proper construction of Sec. 11, of "An act to provide for the collection of Taxes by the State and collection of Taxes by the State and
the several counties of the State, on
property, polls, &c., known as the
Machinery Act," I deem it my duty
to issue this circular letter.

1. From the fact that the officers
of the various Rail Road, Canal and
other Companies, are required by

said section to make reports to me, in much detail, of the condition of the road bed, superstructure, buildings, machinery, engines, cars, &c., it would seem that the General Assembly intended that the Governor, Auditor, and Treasurer of the State should, in their assessment of the fran-chise of those companies, include all of the property so reported. This view is strengthened by the requirement that those assessors should not value any Rail Road at less than \$8,000 per mile, as certainly there is no company whose tranchise alone excluding all its property, is worth that sum.

2. If this view as to the intention of the General Assembly be correct,

then the act to this extent is uncon stitutional as has been decided at the last Term of the Supreme Court of this State in the case of the Wilmington, Columbia and Augusta R. R. Co., vs. Commissioners of Brunswick County. This case expressly decides that the General Assembly cannot confer on the Gov-ernor. Auditor, and Treasurer the nower to assess the value of any pro erty whatever of the Rail Road, Canal, &c., companies, but that such property shall be assessed by the Township Trustees, subject to the revision of the county commissioners
3. In view of this decision the Governor, and Treasurer (the Auditor being absent from sickness) at a meeting held under the above mentioned section, asked the opinion of the Attorney General and these instructions are in accor

dance with his opinion. This Board, therefore, will as the value of the franchise only of the various Rail Road, Canal, &2., companies, excluding from said valua tion all idea of property of whatever kind. In doing so they are advised o disregard as unconstitutional the \$8 000 minimum.

As the mere right to build such roads in sparsely settled communi-ties is often of little value, this Board cannot conscientiously in such cases franchise has high money value.

4. The Township Boards of Trustees are, therefore to value the ros bed superstructure, shops, machine-ry, engines, cars &c. I deem it my duty to mention to those officers cer-tain considerations, suggested by the Supreme Court in the sforemen tioned case, the observance of which will preyent oppression on the Companies and avoid litiga-tion. The following is the Isnguage of the Court: "We are not called on, and will not unnecessarily undertake, to say as law, upon what principle the road, bed and super-structure of a railroad should be val-ued, but it may be useful to suggest for the consideration of county of-

ficers some views which seem reason 1. The cost of a structure, whether it be a house or a railroad, is not the test of its value for taxation. Many instances might be given to zhow that such a rule would be absurd. A man may build a very costly house in a place which is afterwards found out to be malarious, and it is consequenty valueless for habitation. An inventor constructs a costly machine, which, from some fault, does not

work, &c.
2. Neither is the value of the ties and rails, if removed, a test. It may be doubted whether a Railroad company, having accepted privileger under its charter, would have a right upon finding its road unprofitable, to tear it up and deprive the public of its use. The true point of inquiry is, what is the value of the land and structure as it is actually used, or as it is capable of being used, without losing its character as a railroad." It is impossible to explain more clearly the principles on which the valuation of Rail Roads, &c, should

be made.

With regard to the question as to what Township is bound to assess the rolling stock &c., of Railroads &c. lying in more than one Township. I am of the opinion that the intention of the General Assembly is sufficiently expressed in Sec. 7 of the "Machinery Act." to which I refer "Machinery Act," to which I refer

NEWSPAPER ADVERTISING.-Under this head, the Louisville (Ky.) Courier-Journal asks why anybody advertises in newspapers, and gives the following sound and simple answers as to why business people advertise and the principle of advertising: Obviously this, that the advertiser wants his "wants" known; that he "wants" to sell goods; that he "wants" to hire a help; that he "wants" either assistance or custom, which, in his own private walk in life, he cannot readily come up with. Why, then, does he advertise? Because he cannot come up with his want,' Very well; where should he advertise in order to give himself the best show? Certainly in that advertising sheet which is read by the greatest number of people."

INCONGRUITIES OF HYMNS.-In the course of a recent lecture on "Congregational Psalmody," the Rev Dr. Allan noticed some of the incon-gruities that used to occur by the awkward divisions in repetition lines. For instance, "Love thee better than before" was divided, "Love thee bet—;" "My poor polluted heart" became "Mv poor pol—;" "We'll catch the fleeting hour" was sung "We'll catch the flee—;" "And take the pilgrim home" became "And take the pilgrim home" became "And take the pilgrim home became "And take the pilgrim home." pril—;" "And in the pious He delights" was "And in the pi—and in the pi—;" and "Send down salvation from on high" became "Send down Sal—.' A soprano in one case sang "Oh! for a mau—, and the chorus responded "O, for a mansion in the skies." In one case the soprano modestiy sang, 'Teach me to kiss,' the alto took up the strain, 'Teach me to kiss,' while the bass rendered it quite prosaic by singing, 'Teach me to kiss the rod.

The administration defeat in Connecticut does not seem to have star-ted a very bloody rebellion in the South as yet. Several perspiring orators were sure it would, and it is rather unkind in the South to disappoint them so. It can hardly be possible that these loyal statesmen were dishonest in their prognostica-tions. Every fair minded man must put the same faith in them that Artemus Ward did in the auctioneer. "I don't think," said Artemus reflectively, "he ever told a lie; un-less it was to amuse the crowd or to make something by it."-Tribune. The Henderson, Tenn., Advocate

prophecies that in few years this seccotton-growing country, and in place of cotton plantations we shall nave stock-farms, etc. The approaching transition is evident from the signs of the times. We hail these indications as auspicious to the future improvemens and prosperity of the country. This is significant: The levee held by Cardinal Manning in London

was attended by all the members of the Catholic hierarchy in England, save the Bishop of Shrewsbury, an immense assembly of the Catholic nobility and gentry. The Duke of Norfolk, the Marquis Lord Denbeigh, Lord Gainsborough, Lord Howard of Glossop, and twenty members of the house of commons were present.

THE SIGNS OF HEALTH,—Health invariably declares itself by visible signs. A person with a sailow, haggard visage and attennated frame may declare that he is "in perfect heath," but if he does, don't believe him, for he is not. His looks belie him, and his asseveration is merely bravado. Few persons, except hydochondriaes, desire to be thought unwell. A fresh complexion, a clear eye, a happy expression, and an absence of leanness, indicate that their possessor enjoyagood digestion, sound sleen and a vigorous circulation, three essentials of health which are fortunately not beyond the reach of invalids. The surest medium for their attainment is Hostetter's Stomach Bitters, which by purifying the blood banish sallowness, and by promoting perfect digestion and sound sleep, keep the body well nourished, and impart to the face the placid expression indicative of a clear and unwearied mind. The Bitters are far more conductive to good looks than any cosmetic that ever humbugged the credulous. NNOUNCEMENT

JOHN HARPER, the senior member of the publishing house of Harper and Brothers, of New York, died a few days since. Time was when this name was a household and an honored one throughout the whole land, the South being as much indebted to its judgment and good taste in the choice of publications as the other sections of the Union. During the war and since the war, their house was made the channe for the most cruel, bitter and slanderous assaults upon the South, the falseness and malignity of which time has not abated, and Harper &

There is one trait in that family to be admired and imitated. It was the perfect confidence prevailing between the brothers, and the unbroken affection existing among them .-They were as one, and that, together with their business tact, is the secret of their great and continued

Brothers have no friends here now.

THE National Republican, true to its instincts of hatred to the South condemns the magnanimous utterances of Gen'l. Bartlett at the Concord Centennial-sentiments that with the exception of the Republican have met the cordial approval of every other man and every other journal in the land. It is strange with what pertinacity the Republican clings to its old slogan of treason and traitors, and how reluctant it is to let loose its hold upon that convenient weapon to fire the passions of the Northern heart. We tell the Republican that those terms carry no reproach to the Southerner. And as in the old revolution, the term rebel became a title of honor, so will it be soon accepted by hisstatesman and soldier. The South was really the true defender of the constitution. The tremendous and deadly assaults made upon that instrument by the Radical party of the North and by the Administration is slowly convincing that section that the South was right in assuming its defence.

CONSERVATIVE MASS MEET

We press upon the attention of our fellow citizens the Mass Meeting to be held in Metropolitan Hall on Saturday night to consider the questions connected with the City Government, and to apply a check to the long career of radical misrule. It is a serious and solemn occasion which would call out the grave and dignified fathers of the city to mingle in the dust of party strife. But they do so from a weighty sense of duty. And if they can come out, to the sacrifice of ease and comfort, to renew services long ago performed and which should relieve them from farther exertion, can the younger, the more vigorous, those whose tax of public devotion is yet to be paid, hang back in indifference? We hope not, but expect all to be there with voice and hand to take the right steps to redeem the city.

Remember that Judge Battle is to preside, assisted by twenty-five of the most venerable and distinguished gentlemen of the city as Vice-Presidents, and that Hon. W. N. H. Smith, Hon. D. G. Fowle and Maj. Seaton Gales will address the meeting. Surely these name will draw to the meeting every man in the city. bas nagroM. neow

use of fertilizers, because we believe that in the scarcity of labor it is absolutely necessary to supplement the use of home-made manures by artificial means. But we would caution the farmer against the neglect of the former. Artificial fertilizers never permanently improve the lands; they only stimulate one crop. Home-made manures result in progressive and lasting addition to the value of land, until by continned and sudicious application. land may be brought up to a point when it needs little aid. Every farmer has the means of making a full supply for a portion of his land each year. Until this is done, farming may be looked upon as purely and became so inflamed by the news

speculative business to be measured by the value of what can be forced out of land to meet the exigencies of one year.

The Georgia farmers are discussing the question of the discontinuance of the use of guano. The amount bought this year in that State is 5,838,614 less than last year. They say they think the application of guano is injurious to land. That may possibly be the case with some A judicious medium may be adopted, and the time may be reached when the artificial stimulus may be withdrawn and dependence placed upon home-made manure. But that time is not yet.

## THE TRUCKERS.

We are glad to learn from our Norfolk exchanges that the loss to the truckers by the frost is thought to be much exaggerated as regards that section at least. This interest is really a tremendous one, counting its proceeds by the hundreds of thousands of dollars. There is no question about the destruction of the fruit crop, with the possible exception of strawberries.

In this State, we are sorry to learn of no mitigation of damages. On the Wilmington and Weldon Road. on the Raleigh and Gaston Road, about Beaufort, Newbern and Goldsboro, the loss is quite as heavy as at first stated, and this is the second successive year that this same loss has occurred—enough to dishearten the enterprizing truckers who seemed so nearly assured of splendid profits

We are sorry to observe the total destruction in our upper counties of the "mast" of acorns and other nuts upon which the facility and economy of pork raising depends.

THE ORANGE COUNTY MEET-

A large meeting of the Democrats of the County of Orange was held in the Court House in Hillsboro on Tuesday to nominate candidates to: the Constitutional Convention. As it was to be expected, the Convention did itself honor by nominating by acclamation and with unbounded enthusiasm, the Hon. W. A. Graham.

The Hon. Josiah Turner was nominated as the coadjutor of Mr. Graham. It is but truth to say that whatever may be the apparent majority in the Convention for this gentleman, the mode in which it was obtained has given deep dissatisfaction in the county. His own active participation in bringing about the result, together with the very loose obligations resting upon the people from the manner in which the votes were cast, will probably free many from party restraint. It is deeply to be regretted that in the outset of an important campaign

there should occur anything to mar the harmony of the county which has led off in the nominations. But it cannot be denied that there is deep dissatisfaction which may culminate either in further action, or if unchanged, in disaster to the party.

THE MECKLENBURG DECLA-

We publish below from the Southern Home an article on the subject of the mooted question of the exact period of the Declaration. As the subject has additional interest from the approaching celebration of the Centennial of that event, we take great pleasure in reproducing it, believing that our readers will share in our own interest on the subject : CUMULATIVE EVIDENCE.—We give in our issue of to-day additional evidence of the authenticity of the Mecklenburg Declaration, which ought to be able to satisfy Prof. Welling, Daniel R. Goodloe or the most eager of the notoriety hunter, who have denied it in order to get what cheap fame. First, we have the letter of "K.," a living witness, who explains why the Covenanters of 175 could not and would not sign the Declaration, and he testifies to having heard a witness of the 20th son he could not participate in it. 2nd. We have the letter of Mrs. Dr. D. A. Dougherty, of Jonesville, North Carolina, a grand niece of Captain James Jack, who carried the Declaration to the Continental

is now an old lady, but her mental powers are unimpaired and her high character endorses fully the truthfulness of her statements.
3rd. The extract which we give on our 1st page from the Catawba Jour-nal of 1826, is entirely satisfactory as to the genuineness of the Declara-tion. It seems from this letter in the Catawba Journal that the great mass meeting at Honewell Church, in 1824 which was addressed by Dr. Wins low Alexander, has made some in-quire why this Declaration had not been more talked of before that time. In answer to this, the writer makes In answer to this, the writer makes an extract from an address delivered in 1809 by a pupil of Rev. S. C. Caldwell and published that year in the Baleigh Minerva. This extract is somewhat florid in style as boyish effusions usually are, but it unhesitatingly asserts that the citizens of Mecklenburg held a mass meesing in Charlotte on the 19th of May, 1775 and then and there threw off the artish woke. This exactly accords British yoke. This exactly accords with the facts as we now have them. The meeting was held on the 19th

solve upon Independence and to appoint a committee to draft Resolu-tions to that effect, which were adopt-

The Academy of Rev. S. C. Caldwell was in Mecklerburg county, where these events are alleged to have occurred. He was a celebrated teacher and the grand-son of the Rev. Alexander Craighead, who taught the erty to the people of this section. Can any sane man believe that a Christian minister of the high character of Mr. Caldwell, would allow one of his pupils to get up and utter a fie about a public transaction, which had occurred but 34 years before in the very county in which the Academy was situated and which hundreds still living could brand as a lie? Moreover, we have to suppose that Mr Caldwell allowed this lie of his pupil to be printed in a paper pub-lished at the Capital of the State, when it could be contradicted from the mountains to the seaboard. If Prof. Welling and Mr. Goodloe can believe this, they can have no trouble in believing that the moon is made of green-cheese. The only rational supposition is that Mr Caldwell knew that his pupil was telling the truth listened to it as the truth and per-mitted it to be published as the truth. Let it be observed, moreover, that this publication was ten years prior to the correspondence between Ex-President Adams and Jefferson on he Mecklenburg Declaration, ten years earlier than the notoriety-seekers assert that the great event was first spoken of.

No one has yet been selected to fill the place of Attorney-General Williams. The place has been so disgraced by incompetency and made so odious by its connection with perversion of its powers that a decent man will hardly be found willing to accept it under the present administration. Williams will probably have a successor like him-

Delano has concluded not to resign, out of a sense of duty to himself and the Republican party .-Grant's endorsement of his integrity. gives him full liberty to go on filling his pockets without stint-that is duty to himself, and the sharp practice he has had in roguing makes him too useful to be parted withis duty to his party.

Somebody has again made the discovery that Whittier's Barbara Freitchar was a myth; that there "never was no sich person." Next we shall find that Poe's Raven never had any existance,—never "perched upon the bust of Pallas;" or that Fitz James and Rhoderick Dhu never met foot to foot and hilt to hilt; that Ashby d'la Zouch and Ivanhoe were mere creations of Scott's own brain Well, we are prepared even for this; but, nevertheless the verses are immortal. Such grand creations no more need a foundation than the universe of God, which is complete and perfect in itself and stands upon othing.-Richmond Enquirer.

KISSING IN CHINA-It is a singular fact that the custom of kissing is altogether unknown in China. The Chinese, indeed, have no word or term expressing love as we under-stand the tender passion. An American navy officer, voyaging China ward, narrates an amusing experience of the ignorance of the Chinese maidens of the science of kissing. Wishing to complete a conquest he had made of a young mei jin (beautiful lady), he invited her—using the English words—to give him a kiss. Finding her comprehension of his request somewhat obscure, he suited the action to the word and took a delicious kiss. The girl ran away into another room thoroughly alarmed, exclaiming, "Terrible man-eater! I shall be devoured." But in a moment, finding herself uninjured by the salute, she returned to his side, saying, "I would like to learn more of your strange rite. Ke-e-es me!" He knew it wasn't right, but he kept on instructing her in the rite of "ke-e es me" until she knew how to do it like a native Yankee girl, and, after all that, she suggested a second course by remarking, "Ke e-es me some more seen jin, mee-lee-kee!" (Anglice—American) and the lession went on until he mamma's voice rudely awakened them from their delicious dream.

THE DELAWARE PEACH CROP. It is learned from the most reliable sources that the damage to the peach crop by the recent cold weather is not as serious as was at first feared. The damage has been more severe in some sections than in others. orchards on the Sassafras river have suffered a loss of three-fourths the crop yellow varieties on trees of any age. The same report is made in Kent county. The crop near Cecil-ton is from three-fourths to ninetenths gone. It is believed that peaches in the vicinity of Townsend and the "Levels" are not materially injured. From Laurel two-thirds the peaches on the trees from three to five years old are reported killed, and on older trees one-third. At present the prospect for a good crop from the Peninsula generally is quite up to the average.—Philadelphia Ledger.

A rather unique sort of a miser died a week or two ago in Hudson, New York. He was an Episcopal minister, who served as a missionary for his church in Greene county, re-ceiving a salary of \$200 and numer-ous donations. He lived in extreme poverty, and when he died a sub-scription was taken up to pay the funeral expenses. After the funeral his rooms were examined, and a will found, together with a package con-taining \$94,000 in Government bonds and a bank book showing a deposit of \$10,000 in a bank in New York city. The will gave half of his profit to his relatives and the rest to St. Luke's Hospital and to churches in which he had preached. The clergyman's name was Clark, and he went to Greene county from Hallfax, N. S.

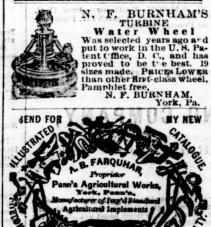

The action of the judge who, at Frankfort, adjourned his court to see the elephant swim the Kentucky river, has been supplemented recent ly at Lexington. The Dispatch says: Yesterday morning, immediately after the opening of the Court of Common Pleas, the faint sound of the music of Bailey's calliope was heard coming in rection of the Temple of Justice, when four lawyers were observed to vacate their seats, soon followed by the sheriff and four jurymen. This was too much for his Honor, Judge Buckner, who grabbed his hat and announced the court adjourned for

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. Read the following opinions of some who have used WHANN'S RAW BONE SUPER PHOSPHATE: PHOSPHATE:

Green Level, Wake County, N. C., Nov. 25, 1874.

Messrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last Spring made the best crop of cotton I ever neade, and I consider it decidedly the best fertilizer I ever used, I want it again next season.

Yours truly,

S. W. MITCHELL. R. D. V. maleo VI dirol \_\_\_\_ collection Louisburg, N. C., Nov. 9, 1814.

Messrs, Ring, White & Shaw : (440) Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has threed out better crops for me than any other, and I expect to continue to use it.

Yours truly.

JOHN E. THOMAS. SIAM SENOITATE Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Oxford, N. C., Dec. 10, 1872.

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpass dour expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Louisburg, N. C., November 7, 1871. Messrs. King, White & Shaw:
I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer. Norfolk, Va., January 6th, 1875.

Messrs. Waltor, Whann & Co., Wilmington, Del.:

Dear Sirs:—In response to your inquiry as to the action and worth of Whann's Raw
Bone Super Phosphate, we beg to say that we have sold it to the best planters of North
Carolina for eight consecutive years. Many of the parties who bought of us eight years
ago are still using it. It has always ranked as among the very best of commercial fertilizers, and has been very popular wherever used.

Yours truly,

GUANAHANI GUANO COMPANY,

PETERSBURG. VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been inost satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fail, and having large and well vestilated Warehouses in the city of Petershug, and at City Point, we are enabled to put our Guano on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

in a condition as is dry accessing freedom notations, equal to any management of lizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made no innovation on established assage, by publishing those letters received unfavorable to our Gnano, but careful inquiry in many cases proves that the cause of its failure was not ewing to any fault in the Gamo, but to those far beyond our control. We have frequently heard the same compisaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western countries of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and second to NONE.

We confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
